

Save Time and Money by Weighing Your Product as You Move It

Wireless display for piece counting, code entry and scale functions

Display with easy-to-access rechargeable batteries

Each fork transmits information to the display via Bluetooth®

Rechargeable batteries come standard with all Weigh Forks Pro models

Optional printers make it easy to track activities and print receipts or labels

APPLICATIONS

Weigh Forks work on virtually any lift truck with a carriage. These unique and innovative forks let you weigh your product more efficiently by allowing you to weigh your product as you lift it. The wireless display uses Bluetooth® technology enabling you to view and track the weight of individual loads and total weight of multiple loads. Some models of Cascade Weigh Forks are approved by NTEP for use in the USA. Common uses for the Weigh Forks include incoming goods control, overload prevention, dosing, filling, waste management, order picking and inventory control.
