

APPLICATIONS

Cascade manufactures a range of bins for the collection and disposal of waste materials and liquids, from self-tipping bins to bins that are operated by the forklift driver. All of these bins have a forward rolling action with the roll over bin being a 4-way entry to allow side tipping. It also has a unique cutaway front opening making it suitable for tipping fluids. The driver release models 10A-MDB have a cord operated release mechanism.

FEATURES

- Self tipping
- Fork pockets for easy lifting with a fork-truck
- Pull chord for operation from driver seat
- Optional wheels for easy moving (not included)
- Drain plugs for liquid storage optional
- Heavy Duty suitable for metal, timber and building rubble

SPECIFICATIONS

SWL Capacity:	1000kg
Volume Capacity:	0.65m ³
Pocket Size:	165x65mm
Pocket Centres	350mm
H C of G	867mm
V C of G	408mm
Weight	192kg
Design Ref	SK-56204

DIMENSIONS

Overall Length	1715mm
Overall Width: (W)	680mm
Overall Height:	1016mm
Internal Width	600mm
