

APPLICATIONS

The standard WPC-A02 model allows access to difficult-to reach areas. Makes stock and maintenance tasks simple. Unit comes with floor-mounted anchor points and optional tool tray. Work Platforms have been designed for Forklift use to safely carry out tasks of “short duration” and “occasional usage” such as maintenance or stock take. Manufactured in strict accordance with Australian Standard AS 2359.1, this Work Platform is suitable for a maximum of two people and is supplied flat packed.
