

## APPLICATIONS

Designed to suit one type “G” Oxygen and one type “G” Acetylene gas cylinder. Provision has been made to safely store hoses and tools at the back of the unit. The trolley is supplied with an outward opening plate which securely locks both cylinders in place.

Fitted with rubber handles, crane lift point, fork pockets and  $\varnothing$ 400mm air inflated pneumatic tyres; this cage can be transported by forklift, by crane or manually by personnel.

Finished in safety yellow paint.

## FEATURES
