

APPLICATIONS

Cascade rotators are suitable for applications where working cycles require load rotation or emptying of containers. These units commonly work in chemical metallurgical, automotive, recycling, waste disposal and in food processing operations. A wide range of capacities ensures that the correct unit is supplied and is cost effective for the application.

FEATURES

- Visibility—Large visibility window increases driver visibility
- Rotational Torque— smooth, positive rotation of load
- Bin Hold down designed to suit a range of bin sizes

SPECIFICATIONS

Capacity:	2045 kg @ 600mm
Weight:	461kg
E.T	285mm
H C of G	245mm
V C of G	342mm
Mounting:	Class ITA2
