

The fork positioner for warehousing and distribution material handling requirements.

APPLICATIONS

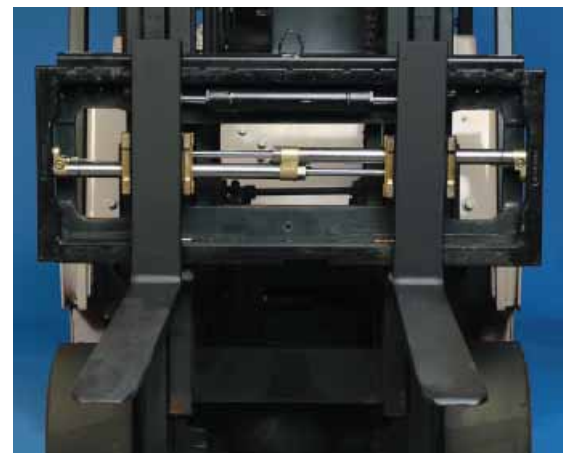

The 55K sideshifting fork positioner is recommended for lift trucks in distribution, warehousing and light manufacturing operations. This high visibility fork positioner allows the operator to accurately position the forks from the driver's seat for handling a variety of pallet configurations.

FEATURES

- OEM load backrest compatibility
- Excellent operator visibility
- No-weld installation
- Zinc plated, corrosion resistant components
- Centre mount, 100/125mm wide fork carriers

OPTIONS

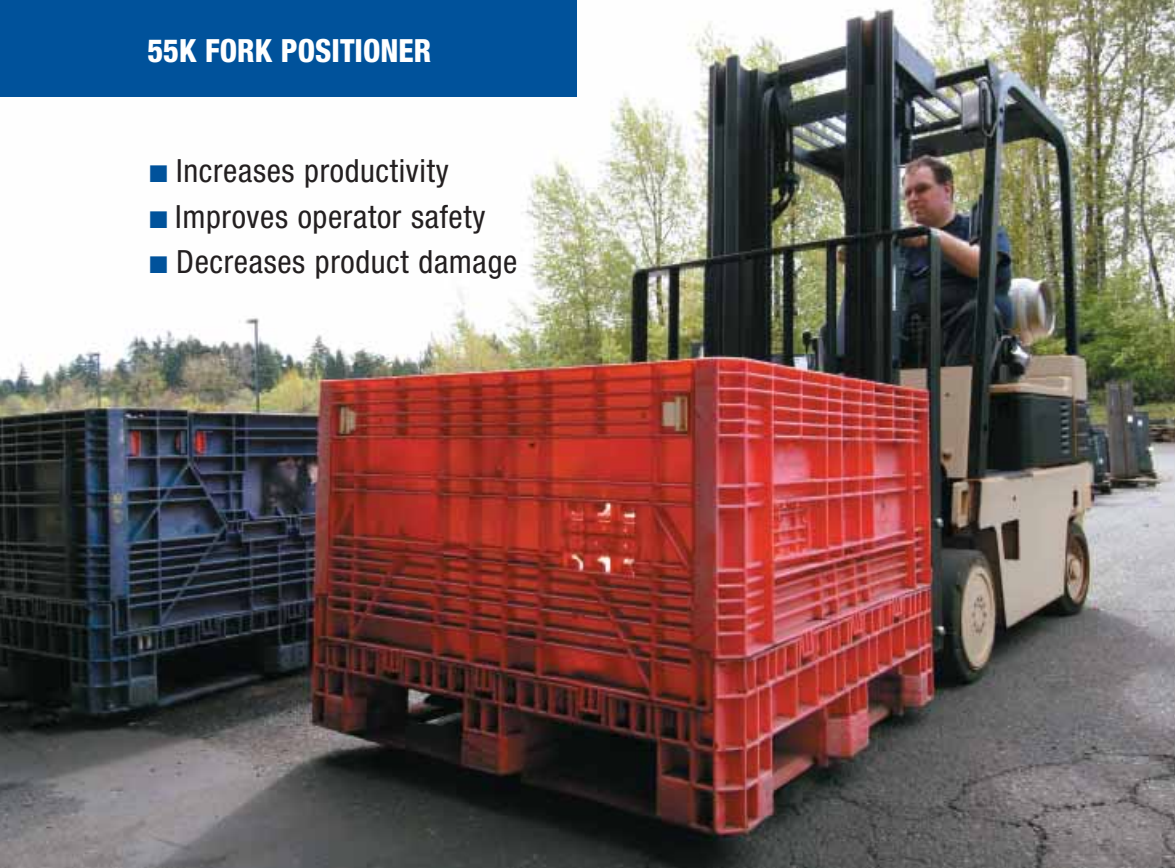

- Bolt-on pallet protector/cylinder guard combinations
- OEM compatible load backrests
- Bronze bearings
- Bronze lower hooks
- Radio Frequency Hydraulic Control
- Non-Sideshifting Models available

*A refined
fork positioner
designed to
increase
productivity,
improve safety
and decrease
product damage.*

55K FORK POSITIONER

- Increases productivity
- Improves operator safety
- Decreases product damage

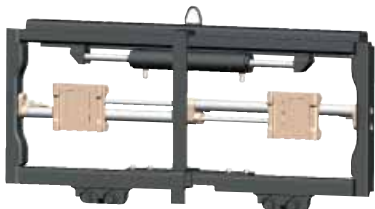

Removable fork carrier end
allows forks to be easily installed.
No weld-on anchor lug is required.

Restrictor fittings
on both cylinder ends allow
for speed adjustment and
fork synchronization.

OPTIONS

Bolt-On Pallet/Cylinder Guard
provides additional protection for the pallet and
cylinders.

Radio Frequency Hydraulic Control
provides a simple, cost effective means to position
the forks. Permits the use of a single function
auxiliary valve to control an additional hydraulic
function. Eliminates the need for additional hydrau-
lic hoses or electric cables and offers a minimum
of installation time.
