CASCADE AUSTRALIA PARTNERSHIP

Handling Systems Australia is proud to be nominated as Cascade Australia's exclusive Western Australia distributor. The following is a press release statement made by Cascade Australia.

Cascade (Australia) Pty Ltd, the leading Forklift Attachment Manufacturer, is pleased to announce that it has appointed HS Sales as its exclusive distributor for the West Australian region, effective from the 1st July 2017. Cascade's Australian General Manager Mike Slobe said this development was an excellent opportunity for Cascade to provide better service to its clients in WA.

"HS Sales has long been established in Perth and has premises and support staff in place in Welshpool, which is central to the majority of Fork Truck dealers in WA. Cascade will continue to provide sales support through our long serving employee Clive Dobbins, but with HS Sales support and structure we will be able to hold a wider range of stock, including fast moving product such as parts, forks and Mechanical Attachments, in an easy to access location."

Nick Ashbrook, the owner of HS Sales said "HS Sales are excited to be partnering with the #1 forklift attachment company, not just in Australia but globally.

We look forward to working with Cascade's existing customers and providing them with a localised service. We will continue to offer our range of fabrication and modification services as well as assist Cascade customers with a fit up and repair service."

Cascade will close its existing warehouse in Canning Vale, as this will be surplus to requirements. For further information or for product support contact us today.
