

APPLICATIONS

Cascade's range of Spill Bins are a must if you have a need to store liquids. They offer complete protection against damaging and costly chemical spills. We provide 3 models, catering to up to four (4) drums or a 1000 litre International Bulk Container (IBC). The grid spacing caters for large or small drums up to 2000kg to be placed directly onto the Spill Bin. Timber pallets may be fitted within the raised skirt on the appropriate model. All types of Spill Bins are provided with at least one drain plug to facilitate emptying the receptacle. All models have a spill capacity of at least 110% of the largest package in accordance with Australian Standards, being classified as "portable" units. This product comes in a long-lasting Zinc-plated finish.

FEATURES

- Designed in accordance with AS2359.
