Parrot Beak Drum Lifters

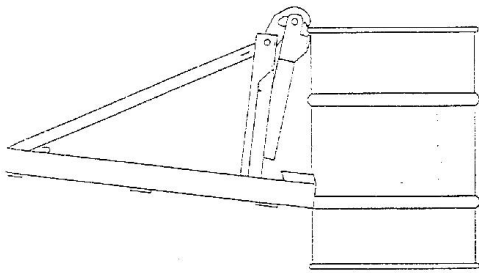

Slip on mechanical drum lifters suitable for both steel and plastic drums. Beak design provides positive holding pressure when travelling. Clamping and release functions are automatic and do not require the operator to leave the drivers seat. Suitable for use with 205 litre steel, plastic open top and ring lock drums.

Available in both single and double drum lifting models.

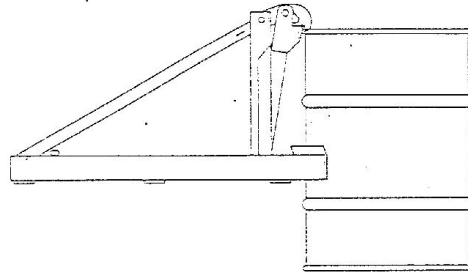

Simple operation:

To lift drum simply tilt forklift mast forward, place lower attachment jaw under the drums top lip and raise the attachment. The grab mechanism will automatically engage. To release simply lower the attachment with the mast vertical and place drum on the ground. The grab mechanism will automatically release.

Tilt forward, place lower jaw below the drum lip and raise the attachment

The grab mechanism automatically engages. To release, lower the attachment and the grab automatically releases
