

## Cost effective fork positioning for 10,000 lb capacity warehousing and distribution

### APPLICATIONS

The class III 10,000 lb capacity sideshifting fork positioner allows drivers to position forks accurately for a variety of pallet configurations, without ever leaving their seat. This new generation fork positioner is easy to install, has excellent lost load, and can handle a variety of challenging applications.

Recommended for logistic operations in distribution, warehouse and manufacturing applications, the 100K fork positioner is a very compact unit with excellent visibility both over, and through the frame, allowing the operator to quickly, accurately, and easily position the forks at all lift heights, right from the driver's seat.

### FEATURES

- OEM load backrest compatibility
- Excellent operator visibility
- No-weld installation
- Zinc plated, corrosion resistant components
- 5", 6" and 7" wide center mount fork carriers
- Center mount fork carriers

### OPTIONS

- Bolt-on pallet protector/cylinder guard combinations
- Load backrests
- Bronze bearings
- Bronze lower hooks
- Radio Frequency (RF) Hydraulic Control
- Solenoid Valve Hydraulic Control
- Sequence Valve Hydraulic Control
- Non-Sideshifting (FP) units available

*100K Fork Positioner is easy to install, has excellent lost load, and can handle a variety of challenging applications.*
