

*All-purpose
attachments
for securing
unstable
loads for
transportation.*

The secure way to handle unstable palletized loads.

APPLICATIONS

Designed for transporting unstable loads such as soft drinks, malted beverages, bottled water and empty containers, Load Stabilizers allow faster operating speeds and more efficient handling procedures by securing the palletized load. They are particularly valuable in outdoor operations and facilities with rough floors. E-Series Load Stabilizers have a net capacity of 3,500 lbs. and are available with a wide range of pad sizes, arm configurations and backrest styles.

FEATURES

- Excellent driver visibility
- Narrow frame width
- Frame fits between forks
- Thin arm pad profile
- Highly competitive rating specifications
- Internal relief valve
- Carriage compatibility

MODELS

- Standard
- Bottled Water
