

APPLICATIONS

The Brick Cage is designed to convey pallets of bricks or similar loose products safely to a work location via overhead crane. Suitable for 1200mm square pallets (1240mm clear inside), and up to 1500mm overall height.

Unit is supplied standard as a “flatpack” (1750 x 1370 x 475mm), or may be fully assembled upon request.

The General Goods Cage is designed to convey loose or palletized goods using either a forklift or crane. The full-width gate allows 1200mm square pallets to be placed inside the Cage if required. The standard Cage is 1350mm square overall and 1153mm high with a gate opening of 1250mm. Stacking feet underneath the Cage allow it to be stacked on top of each other – 3 high when empty, 2 when loaded.

Zinc-plated finish.
