

### APPLICATIONS

Offering a number of fork mounted jib cranes that quickly convert a lift truck into a mobile crane to easily move non-palletised product. A variety of Jib Crane models for practically any application to increase lift truck versatility. Models include Multi-Angled, Flat, Slip-On, or Carriage- Mounted, allowing for effective slinging of loads beneath a hook.

### FEATURES & BENEFITS

- Multiple load positions via a telescoping boom.
- Multi-angle option allows extra height and load capacity
- Designed in accordance with AS2359.
- Zinc-plated finish.
- Capacity rated hooks and swivel included.
- Supplied with rating plate and user manual.
- Easy locking pins or chains to secure attachment to the lift truck.

### NOTE

All lift truck attachments affect the safe working load of a lift truck. End users should consult their lift truck supplier to ensure the lift truck is rated for use with these attachments. In the case of a slung load when lifting a jib attachment, the net lifting capacity should be 0.8 times the rating of the lift truck to allow for the swinging load. Please consult your local lift truck.
