

APPLICATIONS

HS Sales offers several variations of container ramp to suit different applications. Our container ramps are designed to provide easy access to shipping containers to facilitate efficient unloading of product. All have convenient fork pockets to allow easy movement around your site.

FEATURES

- Safety chains for securing ramp to container
- Painted finish in high-visibility yellow
- Supplied with rating plate and manual

Note: Designed for accessing containers on ground level only. The fixed and folding models will not allow the lift truck to be horizontal before entry into the container. Front panel must be extended before use.

Model		Capacity (KG) @ 600mm	Fork Pockets (mm)	Fork Pocket Centres (mm)	Overall Length (mm)	Overall Width (mm)	Weight (kg)
65A-CRF-A02	Single Piece 6.5T Ramp	6500	160 x 60	740	1542	2000	180
