

### APPLICATIONS

HS Sales offers several variations of container ramp to suit different applications. Our container ramps are designed to provide easy access to shipping containers to facilitate efficient unloading of product. All have convenient fork pockets to allow easy movement around your site.

### FEATURES

- Safety chains for securing ramp to container
- Painted finish in high-visibility yellow
- Supplied with rating plate and manual

*Note: Designed for accessing containers on ground level only. The fixed and folding models will not allow the lift truck to be horizontal before entry into the container. Front panel must be extended before use.*
